

The way that Mr. Hyman is justifying the use of the airwaves for his hatchet job is almost as disgusting as what they are planning to air. The media outlets who will not grant interviews to the swift boat vets, he compared them to "holocaust deniers".

Furthermore, he said that every terrorist attack that occurs in Iraq can be called free airtime for Kerry. You guys reacted swiftly when Janet Jackson exposed herself at the superbowl, this thing is far more serious. Don't let Sinclair unfairly bias the voters.
